

Thermostatic Mixing Valves

The market leading TMV2 thermostatic mixing valve for general purpose applications.

Heatguard TMV2

- Economy Pressure Reducing Valves (without pressure gauge points).
- 1/2" and 3/4" models to regulate downstream pressure to set maximum.
- Adjustable outlet pressure, 0.5 to 5 bar.
- Multi media applications (water, light oil etc.).
- Single piece cartridge design for ease of service and replacement.
- Field serviceable strainer.
- High quality stamped DZR brass body.

TMV2 Series

Description	Part No.	Price Each
15mm 2in1	HEAT 219 024	£60.40
22mm 2in1	HEAT 219 023	£60.40
15/22mm 2in1 Universal	HEAT 219 025	£65.60
15/22mm 4in1	HEAT 219 035	£69.65

Heatguard BF2-2

A high quality, high flow thermostatic mixing valve designed specifically for bath fill applications.

Features

- Adjustable outlet pressure, from 1.5 to 6.0 bar.
- Multi media applications - water up to 80°C, oil, compressed air etc.
- Models have dial-up facility, with lockable security once set.
- High flow rate and low noise design - maximum noise is 20dB.
- Union connections for ease of service and installation.
- Balanced design for low dynamic pressure drop.
- Cartridge design for ease of service and replacement.
- Pressure gauge test point for downstream reading.
- Fully serviceable strainer.

BF2-2 Series

Description	Part No.	Price Each
22mm 2in1	HEAT 115 100	£107.35
22mm 4in1	HEAT 115 105	£119.25

Pressure Reducing Valves

312H Series Pressure Reducing Valves

Features

- Economy Pressure Reducing Valves (without pressure gauge points).
- 1/2" and 3/4" models to regulate downstream pressure to set maximum.
- Adjustable outlet pressure, 0.5 to 5 bar.
- Multi media applications (water, light oil etc.).
- Single piece cartridge design for ease of service and replacement.
- Field serviceable strainer.
- High quality stamped DZR brass body.

312H Series

Description	Part No.	Price Each
1/2" MBSP Adjustable PRV	PRED 310 615	£35.80
3/4" MBSP Adjustable PRV	PRED 310 620	£53.70
1" MBSP Adjustable PRV	PRED 310 610	£39.40
1 1/4" MBSP Adjustable PRV	PRED 310 623	£57.30
1 1/2" MBSP Adjustable PRV	PRED 310 616	£39.40
2" Dial Adjustable PRV	PRED 310 621	£57.30

These valves are also available with capillary (soldered) and FBSP

315 HC Series Pressure Reducing Valves

Features

- Adjustable outlet pressure, from 1.5 to 6.0 bar.
- Multi media applications - water up to 80°C, oil, compressed air etc.
- Models have dial-up facility, with lockable security once set.
- High flow rate and low noise design - maximum noise is 20dB.
- Union connections for ease of service and installation.
- Balanced design for low dynamic pressure drop.
- Cartridge design for ease of service and replacement.
- Pressure gauge test point for downstream reading.
- Fully serviceable strainer.

315H Series

Description	Part No.	Price Each
1/2" MBSP Adjustable PRV	PRED 350 001	£63.00
3/4" MBSP Adjustable PRV	PRED 350 002	£85.00
1" MBSP Adjustable PRV	PRED 350 003	£104.00
1 1/4" MBSP Adjustable PRV	PRED 350 004	£159.50
1 1/2" MBSP Adjustable PRV	PRED 350 005	£290.00
2" Dial Adjustable PRV	PRED 350 006	£292.20
15 Dial Adjustable PRV capillary	PRED 350 007	£53.70
22 Dial Adjustable PRV capillary	PRED 350 008	£71.55
28mm Dial Adjustable PRV capillary	PRED 350 009	£89.45
1/2" Dial Adjustable PRV	PRED 350 010	£53.70
3/4" Dial Adjustable PRV	PRED 350 011	£71.55
1" Dial Adjustable PRV	PRED 350 012	£89.45
